Copy 4 of 6. ✓

13 June 1958

MEMORANDUM FOR : Special Assistant to the Director
for Planning and Development

SUBJECT : Publication of "Electronic Aspects of Soviet
Air Defense"

REFERENCE : SC-03378-58, same subject, dated 26 May 1958

25X1A9a 1. To confirm our telephonic conversation of 9 May, I have prepared the attached memorandum addressed to Dr. Scoville, AD/SI, confirming the decision that the study prepared by [REDACTED] of OSI can be published without a DPS operational classification.

25X1A9a 2. As you are aware, the report draft was rather lengthy. It was originally reviewed by [REDACTED] of my staff, who made several suggestions and my later review on 6 and 9 June added some further changes. The OSI paper is now in the process of final typing. Prior to actual publication within the Special and Talent systems we will review the publication.

3. The sanitization referred to in the AD/SI's draft memo involved deletion of Project identification and substitution of the term "high altitude missions". A weighty argument for this conclusion is the fact that recipients will be persons already aware of a major overflight effort as demonstrated within the Talent and Special systems.
